

Avoiding diagnostic errors: What can patients do?

Traian Mihaescu, Diana Veronica Costache

Pulmonology Clinical Hospital, Iasi, Romania

December 10th edition of *Ziarul de Iasi* journal, 2015

Anyone can make mistakes, but a good education that should be practiced among patients may help avoid medical errors. Patients need to know some simple rules that, properly respected, can keep them away from a medical error.

The article was published in a daily newspaper and represents a guideline for patients regarding their interaction with the physician and the medical services as well.
